PROFESSIONAL SUMMARY

Network & SDN Engineer with 3.5+ years of experience in enterprise network delivery and SDN controller operations (Huawei iMaster NCE-Campus). Strong in Linux systems, network protocols, and distributed system troubleshooting. Transitioning toward Network Automation / SRE.

TECHNICAL SKILLS

- Networking: TCP/IP, OSPF, BGP, VLAN, STP, VRRP, WLAN
- SDN Platforms: iMaster NCE-Campus, eSight
- Systems: Linux (process, logs, services)
- Database: MySQL (query, backup, basic tuning)
- Automation: Python (basic), SSH automation concepts
- Troubleshooting: Cross-layer debugging (Network + System + Application)

PROFESSIONAL EXPERIENCE

Huawei Technologies (Outsourced) — Network / SDN Operations Engineer (Aug 2022 – Mar 2026)

SDN Software Operations Engineer (iMaster NCE-Campus)

- Deployed SDN controller across physical, virtual, and cloud environments
- Integrated 100+ network devices into centralized SDN platform
- Resolved microservice, middleware, and database issues via log analysis
- Improved troubleshooting efficiency and system stability
- Supported 802.1X / Portal authentication and policy-based networking
- Maintained MySQL/GaussDB with backup and HA validation

Network Engineer (Enterprise Delivery)

- Delivered enterprise networks for 1000+ user environments
- Configured OSPF, BGP, VLAN, STP, VRRP in production
- Resolved network loops, broadcast storms, and link failures
- Optimized WLAN performance and client connectivity
- Produced topology diagrams and deployment documentation

PROJECT EXPERIENCE

Enterprise Campus Network & SDN Integration (Abstracted)

- Supported deployment for 1000–3000 user campus networks
- Enabled SDN-based centralized management
- Reduced incident resolution time by ~50%
- Improved wireless access success rate

AUTOMATION & INITIATIVES

- Developed basic Python scripts for device access automation
- Performed SSH-based batch configuration operations
- Improved efficiency by reducing repetitive manual tasks

Strong ownership mindset | Fast learner | Targeting Network Automation / SRE roles
